

Creative Specialty Apparel

The concept of finely crafted uniform garment, utilizing premium selected fabrics and forward thinking designs are the focus of Creative Specialty Apparel.

From small to large properties, CSA is capable of handling a vast range of uniform needs. The satisfaction of our customers, National Awards and honors are a testament to the exceptional quality of CSA.

CSA integrates the use of its "Custom-Standard" line of apparel (in line product which can be modified to a specific client's needs), with client specific custom design concepts; resulting in a cost effective, and well-rounded program for each specific property.

Custom Design

Working with interior designers architects, senior management and front line management, CSA will:

- o Design specific apparel concepts utilizing complimentary fabrics, textures and colors.
- o Review and recommend product which will successfully work within a specific venue from image, care, comfort and budget.
- o Work with your uniform management staffing to provide fitting and alteration tips, special requests (custom sizing, additional trims and fabrics, fitting sessions).
- o Delivery of the initial installation product, as well as fill in product with low minimum quantities (6 units per size/style).
- o Development capabilities of client specific fabrics, logos embroidery, specialty weaving, etc.
- o Vast size ranges for both male and female team members.

Custom Standard

CSA is constantly updating its line of custom standard product. New fabrics and designs provide an expeditious turn for semi-custom product.

- o In line patterns, fully graded and ready for fabrication to compliment any properties décor.
- o A vast assortment of fabric from which to choose.
- o Proven fit and construction.
- o Shorter lead time-lines than traditional custom.
- o Computer generated images to view a proposed uniform concept.

CSA has developed a strong reputation for customer support, innovative concepts and high quality product.
